WORK EXPERIENCE.

2019 - present: **Senior technical and industrial safety consultant at Fezz dealers Kenya.**

- Involved in supply, installation and safety training of first aid equipment, fire extinguisher equipment for its various clientele(institutions).
- Involved in government driven mitigation measures against covid 19 (disinfection using industry standard chemicals, screening) at select Government institutions(schools and Tvets).

May 2022 - August 2022: **Junior I.T intern at Mentor Sacco Society limited.**

- I was privileged to intern at one of the fastest growing Saccos in the country at its Headquarters' in Murang'a with an asset base of 9billion+ Ksh and one of the best performing Saccos in dividends payout.
- During my short internship I was able to configure routers, configure legacy servers ,install ,troubleshoot, update and monitor crucial software and hardware under supervision and guidance of my senior I.T director.

January 2023 - March 2023: **Final year project.(Finnalisima Project).**

- I developed the first version of a house hunting app that makes it easy for tenants to easily and conveniently scout for rental units all at the convenience of their smart phones.

The app includes – google maps api, SQLite database and native java Language for the logic. The app is still under development and looking to undergo future enhancements to meet scalable user bases ,improve security and overall improve on the user experience.
